CDIPS Statement of Acceptance of the Master of Science in Psychology curriculum of the Swiss Distance Learning University (Universitäre Fernstudien Schweiz)

During the CDIPS meeting held in the context of the SSP/SGP congress at the University of Lausanne on the 4th September 2017, to which the presidents of the SSP/SGP and PsyKo were invited, professors emeriti, Uli Frauenfelder and Walter Perrig have presented the curriculum (course of studies and evaluation criteria) of the Master Program in Psychology at the Swiss Distance Learning University.

The CDIPS members have discussed and unanimously accepted the presented curriculum.

In conclusion, CDIPS attests that the curriculum of the Master of Science in Psychology program at the Swiss Distance Learning University corresponds to the criteria and accords that have been fixed by CDIPS for a Master program in psychology at a Swiss university.

Prof. Dr. Guido H.E. Gendolla
Président CDIPS
